## Compact Functionality!

The MFT-2700 redefines the standard for compact functionality!

With a main frame footprint less than sixteen square feet the MFT-2700 is the most space conscious dual stack functional trainer on the market\*. The space saving MFT-2700 delivers extreme versatility and enables the user to perform an unlimited number of functional fitness, sport specific, bodybuilding and rehabilitation exercises. The combination of Dual pivot arms that adjust to 150 different positions and custom cable routing that delivers over eight feet of independent cable travel allows hundreds of exercise possibilities. The versatile MFT-2700 allows "user defined" vertical, horizontal, diagonal and rotational resistance trajectories for safe and effective muscle isolation and confusion!

\* Represents base frame measurement. Live working area is larger. See dimensions listed on back of brochure for more details.

## Quality Results!

The commercially rated MFT-2700 features heavyweight construction, industrial components and dual 200 lbs. steel weight stacks, combined with modern design elements that will compliment any setting!

Magnetic selector pins and forward facing weight stacks with high visibility weight identifiers allow quick resistance changes, while hydraulically supported pivot arms and spring loaded selector handles makes adjusting the MFT-2700 simple and easy. Rotating swivel pulley brackets provide 360° of unrestricted motion and feature high strength aluminum pulleys with sealed ball bearings that are maintenance free and virtually indestructible. TuffStuff's ultra thin cables and custom ergo handles make the MFT-2700 the smoothest, most comfortable functional trainer you will ever use.

Shape your muscles, burn off body fat and say goodbye to boring exercise routines with the TuffStuff MFT-2700. TuffStuff Fitness, putting the FUN into functional fitness equipment for over forty years!
