

FRANZ BAKERIES

Please keep in mind that to some people, wheat is considered an allergen, so we listed it, for the mere fact that wheat is in most all bread. We bake in various facilities, and have various production lines in each of the facilities. I listed whether or not there is an allergen on the line, as well as if there are allergens in the facility at all.

Thick Marble Rye (Allergens on the bread line: Wheat, milk, and soy)

Thick Sour (Allergens on the bread line: Wheat, milk, and soy)

Thick White Old Fashion (Allergens on the bread line: Wheat, milk, and soy)

Franz Hotdog Buns- (Allergens on the bun lines are wheat). Within in the facility are: Wheat, milk, soy, and tree nut (coconut only).

Burger Bundles (sliders)- (Allergens on this line are: wheat only, but in the facility are tree nuts, soy). Made at Franz Portland.

Ciabatta- Allergens on this production line and facility are: wheat and soy.

All Kaisers (Jalapeno Cheddar, Onion Cheddar, Wheat Kaisers, and Plain Kaisers) are produced in the same facility and the only allergens that exist in the PFB are wheat, soy, and dairy. No nuts or tree nuts.
